RESPONSIVE

Executive Summary

360 WorkFlow is a modern, premium SaaS dashboard for IT companies, software houses, digital agencies, and medium-sized businesses. It combines project management, task tracking, HR, attendance, leave management, and team productivity into one simple, clean platform — inspired by ClickUp but easier to use.

Business Goal: Give management complete company visibility from one dashboard. Employees get a simple personal workspace. Managers see team workload instantly. HR handles attendance and leave. Clients get limited project access.

KEY HIGHLIGHTS

Simple & Clean UI
Premium black + orange 360 Tech Solution branding. Modern cards, charts, Kanban board, responsive layout.

Role-Based Access
6 dedicated panels: Super Admin, Company Admin, Manager, Employee, HR, and Client portal.

Work Management
Projects, tasks (List, Kanban, Calendar), drag-and-drop, deadlines, priorities, comments, files.

HR & Productivity
Attendance, leave requests, daily work reports, time tracking with live timer, performance stats.

SaaS Ready
Super Admin panel for multi-company management, subscriptions, audit logs, platform settings.

Scalable Architecture
Next.js 16, TypeScript, REST API-ready mock data, modular structure for CRM, payroll, mobile apps.

WORKSPACE STRUCTURE

Company Workspace → Department → Team → Project → Task (simple hierarchy, not overly complex)

User Roles & Panels

Super Admin

Global dashboard, manage companies, workspaces, users, subscriptions, audit logs, security, platform branding, backups.

Company Admin

Full company control: employees, departments, teams, clients, projects, tasks, attendance, leave, reports, settings.

Manager / Team Lead

Team projects, assign tasks, review work, approve leave, team workload, overdue tasks, department reports.

Employee

Personal dashboard, my tasks, update status, daily reports, check-in/out, leave requests, time tracking, announcements.

HR

Employee management, attendance, leave approval, holidays, onboarding, HR documents, attendance & leave reports.

Client

Project progress, milestones, approved tasks, files, feedback, support requests, project history.

PERMISSION ACTIONS

View · Create · Edit · Delete · Assign · Approve · Export — configurable per module via Roles & Permissions matrix.

DEMO LOGIN ACCOUNTS

Company Admin

Authentication & Dashboard

Module 1 — Authentication & Security

- Login with role-based quick access
- Forgot password & reset password
- Email verification ready
- Role-based access control (RBAC)
- Module-based permissions
- User status: active / inactive
- Two-factor authentication ready
- Login activity & audit logs
- Session & device management

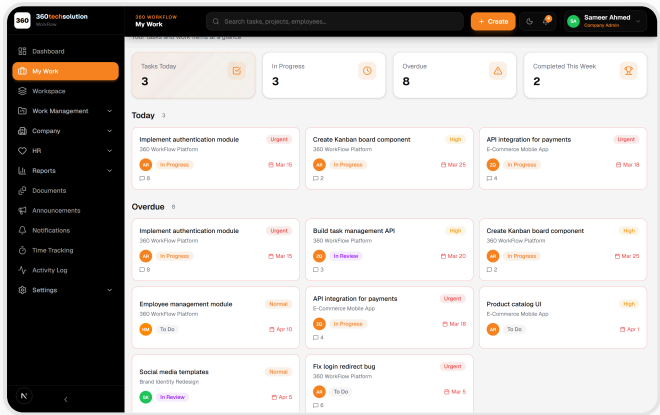

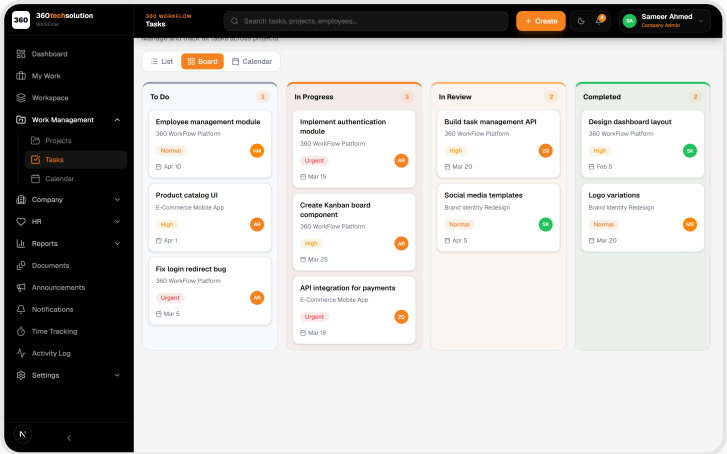

Module 2 — Main Dashboard

- Role-specific dashboards (Admin, Manager, Employee, HR)
- KPI cards: projects, tasks, employees, attendance
- Charts: task completion, project progress, team workload
- Widgets: my tasks, deadlines, activity, approvals
- Quick actions: create project, task, employee, client
- Date range filters & announcements

Tasks & My Work

Module 9 — Task Management (Core)

- Create, edit, delete, duplicate tasks
- Assign / reassign employees
- Priorities: Low, Normal, High, Urgent
- Status: To Do, In Progress, In Review, Completed
- Checklist, subtasks, comments, attachments
- Task detail drawer with activity history
- **Kanban board with drag & drop (Trello-style)**
- List view & calendar view

Module 11 — My Work (Employee)

- Today, Upcoming, Overdue, In Progress sections
- Quick task status update
- Task cards with project, priority, due date
- Quick actions: daily report, attendance, leave, timer

Module 8 — Project Management

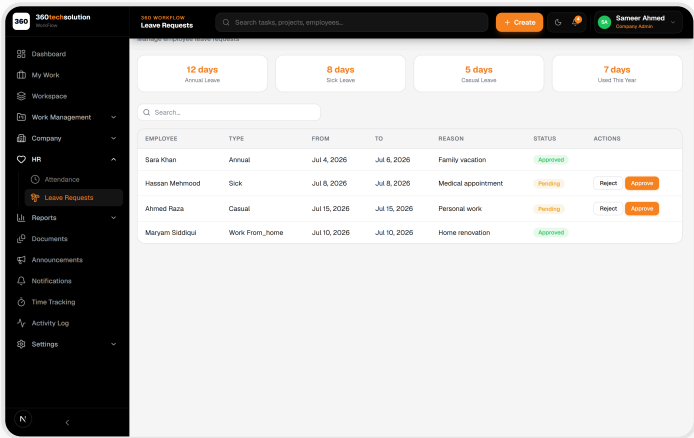

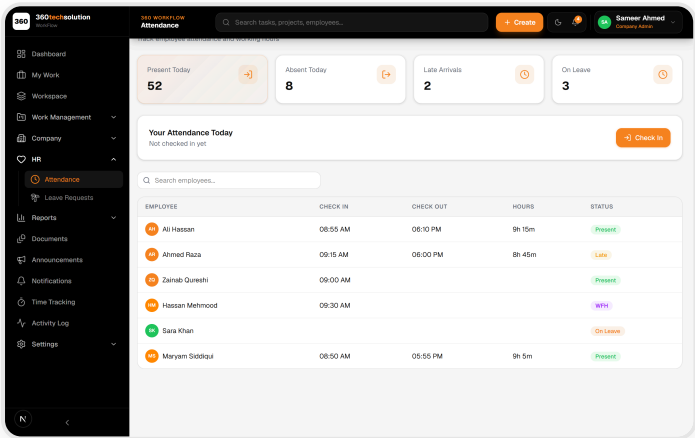

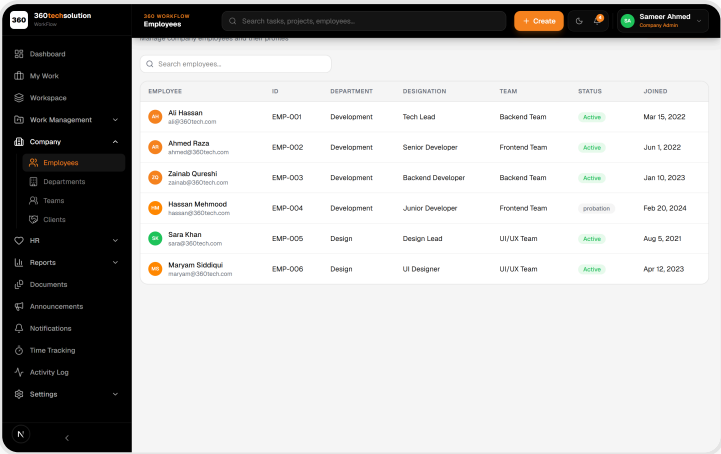

- Project cards with progress bar & team avatars
- Auto progress from completed tasks
- Client, department, team, manager assignment
- Project detail: tasks, files, comments, timeline

Module 6 — Employee Management

- Employee CRUD with profile pages
- Department, team, designation, manager
- Employment types & status tracking
- Skills, documents, performance history

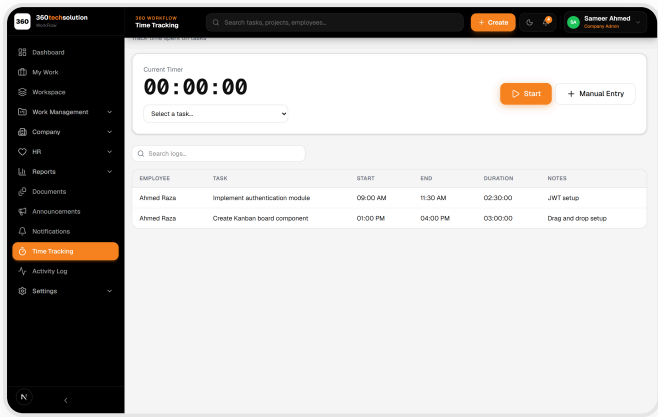

Modules 4–5 — Departments & Teams

- Department heads, team leaders, workload view
- Department & team performance reports

MODULE 14 — ATTENDANCE | MODULE 15 — LEAVE MANAGEMENT

- Check-in / check-out
- Present, absent, late, WFH, half-day
- Attendance history & reports
- Today's attendance dashboard widget
- Annual, sick, casual, emergency leave
- Manager & HR approval workflow
- Leave balance tracking
- Pending approvals on dashboard

Module 13 — Time Tracking

- Live timer with start, pause, stop
- Task-based time logging
- Manual time entry
- Work log history per employee
- Project & daily hours reports

Module 12 — Daily Work Reports

- Tasks worked, completed work, blockers
- Manager review & feedback
- Status: Submitted, Reviewed, Needs Update
